EXPLORING COSMOS AND BEYOND

Where the universe of ideas unfolds

About Kumaraguru SEDS

Kumaraguru SEDS is a dynamic student-run chapter of SEDS-India, part of the global initiative, Students for the Exploration and Development of Space. We empower young minds through rigorous space education and impactful projects, including sounding rockets, CubeSats, and asteroid searches. Our engaging workshops and school/college outreach programs complement our achievements in discovering asteroids and winning competitions, establishing our reputation nationally and internationally.

KOSMORENA' 25
EXPLORING COSMOS AND BEYOND

INTRODUCTION

Welcome to Kosmorena 2025!

We are excited to have you at our annual space festival! Each year is especially remarkable as it coincides with International Space Week. Over the next three days, get ready to experience a journey filled with curiosity, creativity, and innovation. With project expos, ideathons, inspiring talks, and creative challenges, Kosmorena 2025 will ignite your imagination and encourage you to dream beyond the stars.

All the essential details about the festival are right here.

So, what are you waiting for?
Let's reach for the stars together!

– Kosmorena Core Team 2025

DAY 1

OCTOBER 06, 2025

Events	Time
Inauguration	9.00 – 10.15am
Conclave	10.30 – 12.00pm
Cosmos of Ideas	10.30 – 12.00pm
Block and Tackle	10.30 – 12.00pm
Lunch	12.00 – 1.00pm
Astro Survival	1.00 – 2.30pm
Planetopia	1.00 – 2.30pm

DAY 2

OCTOBER 07, 2025

IDEATHON

Events	Time
Introduction and Topic reveal	9.00 – 9.45am
Preparation	9.45 – 11.00am
Break	11.00 – 11.15am
Preparation	11.15 – 1.00pm
Lunch	1.00 – 2.00pm
review	2.00 – 3.30pm
Result Announcement	3.30 – 3.50pm

DAY 3

OCTOBER 08, 2025

Events	Time
3D Printing Workshop	9.00 - 10.15am
Talk Session	10.30 - 12.00pm

COSMOS OF IDEAS

Explore the Space Week Cosmos of Ideas, where school students show their working models and projects about space, science, and technology. See hands-on ideas, learn from others, and enjoy curiosity, imagination, and new discoveries about the universe.

🕒 10.30 am to 12.00 pm

📅 6th October, 2025

📍 Kumaraguru Campus

☎ +91 73059 73235

Eligibility: Open for students from grade 6 -12.

Team Size: 2 to 4 members

Registration link: <https://tinyurl.com/CosmosOfIdeasKosmorena>

COSMOS OF IDEAS

Themes

- Earth's Core
- Formation of a star
- Death of a star
- Big Bang
- Satellites
- Rovers
- Your own topics related to space

Rules and Regulations

1. The expo is open to all students.
2. Participation can be individual or in a team of upto 3 members.
3. Usage of Thermocol is strictly prohibited.

CONSTRAINTS

1. Space models (like solar system balls, orbit diagrams, etc.) are not allowed.
2. Rocket models (static or decorative) are not permitted.
3. Overly simple telescope models will not be accepted.
4. Purely decorative or craft-based models are not allowed – projects must be interactive, functional, or research-based.

BLOCK AND TACKLE

Block and tackle is a fun debate event where the participants (teams of 2) are given a topic on the spot and must argue for (block) and against (tackle) the topic as per the judges command. The participants will be given 5 minutes for discussion after the topic has been given to them. Both the members of the team must speak equal number of points for both in favour of and against the topic. Participants are allowed to speak in English only. The judgement will be based on the team's fluency, spontaneity, and concept depth.

BLOCK AND TACKLE

🕒 10.30 am to 12.00 pm

📅 6th October, 2025

📍 venue

☎ +91 96008 33650

Eligibility: Open for students from grade 9-12.

Team Size: 2 members

Registration link: <https://tinyurl.com/BlockAndTackleKosmorena>

Rules and Regulations :

1. Open for students from grade 9-12.
2. Participants will speak in favour of the topic when the judge says “block” and will speak against when “tackle” is said.
3. A strict time constraint will be followed: 5 mins for preparation, 5 mins for performing.
4. Both the members of the team must speak equal points for both in favour of and against the topic.
5. Participants must only use English.

BLOCK AND TACKLE

Themes :

1. Asteroid mining is needed for resources vs. It's risky
2. Mars colonisation is needed
3. Robots vs. Astronauts for exploration
4. Large budget should be given for space exploration.
5. We should contact aliens even if it is risky.
6. We should escape earth instead of saving the earth.
7. We need space weapons to protect earth from space disasters.
8. Space tourism should only be allowed for rich people vs. it should be open for everyone.
9. Rocket launches should be limited due to pollution.
10. We should observe the whole sky instead of focusing on only one target.
11. We should have a single union for space research instead of separate organisations (ISRO, NASA, etc.)
12. Garbage from earth should be released into outer space.

PLANETOPIA

Planetopia is a event in which participants (team of 2) will create their own planet model and its life form using the materials given with their imagination. Models needn't be scientifically accurate. The teams will be given 1 hour for creating their model . Each team should present their model with clear explanation to the jury members. The judgement will be based on their creativity, presentation of model and team's explanation on their models to the jury members .

There will be two categories

1st category – class 6th to class 8th

2nd category – class 9th to class 12th

PLANETOPIA

🕒 01.00 pm to 02.30 pm

📅 6th October, 2025

📍 venue

☎ +91 93457 81132

Eligibility:

Open for students from grade

1. Class 6 - 8
2. Class 9 - 12

Team Size: 2 members

Registration link: <https://tinyurl.com/PlanetopiaKosmorena>

Rules:

1. Each team should have 2 members
2. Cardboard, colour papers and Clay will be provided to students
3. Students should bring their own art supplies such as paints, sketches, crayons, scissors, fevigum etc.,
4. Students should create 2d planet model with three layers (crust, core & mantle) using cardboard and lifeform using clay
5. Students should present their models with
 - Appropriate planet name
 - Composition of layers of planet
 - Type of planet (solid or gaseous planet)
 - Atmosphere and climatic conditions
 - Terrain and surface features
 - Any life form with appropriate name

ASTRO SURVIVAL

A fun, space-themed survival game where teams of two astronauts protect their O₂ balloons while collecting keys (fuel & antenna) to save their rocket. Volunteers act as alien attackers, trying to pop the balloons. Teams must use teamwork and strategy to survive and win!

🕒 01.00 pm to 02.30 pm

📅 6th October, 2025

📍 venue

☎ +91 93448 90940

Eligibility: Open for students from grade 6-12.

Team Size: 2 members

Registration link: <https://tinyurl.com/AstroSurvival-Kosmorena>

ASTRO SURVIVAL

Gameplay

Survivors (Astronauts) must collect both the Fuel and Antenna keys from the alien base and safely return to their home base.

Teams:

- Each team consists of 2 astronauts (a duo).
- Every astronaut is equipped with 2 balloons (representing O₂ cylinders tied to their wrist/waist).

Rules:

- Collecting Keys: Survivors must retrieve both keys (Fuel & Antenna) from designated spots on the alien base.
- Returning Safely: To score, survivors must return to their base with both keys and at least one balloon intact.
- Balloon Safety: Balloons represent oxygen cylinders. If all balloons are popped, the astronaut is eliminated.
- Attackers: Volunteers act as attackers, attempting to pop the survivors' balloons to sabotage their mission.
- Victory Condition: The team wins if they return to base with the keys and at least one balloon.

Live Instructions:

- Additional rules and details will be explained during the live event.

Scoring

- Each key collected (fuel or antenna): 5 points
- Each pair of balloons surviving at the end: 5 point
